Graphic Designer

Description
We're looking for **Freelance Graphic Designers** to collaborate with our team on various creative projects and help us develop engaging, high-quality visual content.

Responsibilities

- Design PDF materials for in-app courses, including guides, presentations, and educational materials.
- Create marketing creatives, email visuals, and social media content.
- Develop design templates based on brand guidelines and visual references.
- Create visuals using AI-powered tools, including images, creative concepts, and branded assets.
- Adapt designs to different formats and project requirements while maintaining visual consistency.
- Prepare static visuals that can be further used in animations and other content formats.

Qualifications

- 2+ years of experience in graphic design.
- A portfolio showcasing your design projects and creative approach.
- Experience with AI-powered image generation tools.
- Strong understanding of composition, color theory, typography, and visual hierarchy.
- Ability to work with different visual styles and experiment with new approaches.
- Proactive mindset and strong attention to detail.
