Description

As a WordPress Site Manager, your primary responsibility will be to oversee and maintain our WordPress website. You will work with a deep understanding of WordPress, themes, and plugins to ensure our online presence is optimized for performance and user experience. Whether you're a seasoned WordPress pro or a fresher eager to learn, we have full-time, part-time, and fresher positions available.

Responsibilities

- Manage and update our WordPress website.
- Collaborate with the team to implement design changes, content updates, and functionality enhancements.
- Ensure the website is responsive and user-friendly.
- Troubleshoot and resolve technical issues as they arise.
- Stay up-to-date with WordPress trends, best practices, and security measures.

Requirements

- Education: Diploma (Preferred)
- Experience: WordPress: 6 months+ (Required)
- Proficiency in WordPress, themes, and plugins.
- Strong problem-solving skills.
- Attention to detail and a commitment to quality.
- Ability to work independently and as part of a team.
